Education

San Jose State University

Master of Science in software engineering

Aug. 2024 – Present

San Jose, California

Acropolis Institute of Technology and Research

Bachelor of Technology in Computer Science

Aug. 2019 – May 2023

Indore, India

Experience

San Jose State University | School of Social Work

March 2025 – Present

Student Assistant

San Jose, California

- Spearheaded the redesign of the Department of Social Work's website, modernizing its UI/UX and improving accessibility using HTML, CSS, and content management tools.
- Provided technical support and software troubleshooting for departmental tools and platforms, enhancing operational efficiency and digital literacy across faculty and staff.
- Streamlined administrative workflows by automating data entry tasks on Microsoft Excel, managing scheduling systems, and supporting event coordination through strong organizational and communication skills.

Cisco Systems Private Limited

Sep 2023 – July 2024

Consulting Engineer-Trainee

Bangalore, India

- Developed front-end for a migration dashboard using React.js along with interactive data visualizations (charts, tables, graphs), improving decision-making and increasing workflow efficiency.
- Built front-end for a network automation tool using JavaScript and HTML/CSS that reduced manual reporting time, hence enhancing operational accuracy.
- Collaborated with backend and DevOps teams to integrate automation workflows using REST APIs and Git version control.

Persistent

July 2022 – August 2022

Martian Internship Program

Indore, India

- Completed an intensive hands-on training program covering core computer science concepts, including Database Management Systems (DBMS), Operating Systems, and Computer Networks.
- Learned industry best practices for software development, debugging, and version control.

Projects

Fashion Recommender and Virtual Try-On | *Python, TensorFlow, OpenCV, FastAPI, MLflow*

- Developed and deployed a hybrid fashion recommendation engine combining collaborative filtering (SVD), content-based filtering, and CNN-driven visual similarity, achieving 85 percent accuracy and robust cold-start handling (75 percent).
- Engineered a modular ML pipeline with FastAPI, MLflow, and automated retraining, enabling real-time recommendations with sub-100ms response times and dynamic ensemble weighting.
- Boosted user engagement by 40 percent in A/B testing through optimized feature fusion (text, image, metadata) and personalized scoring strategies deployed via scalable API services.

BookTable | *Python(FastAPI), React.js, AWS EC2, Load Balancer, RESTful APIs, SQLite, Git, Scrum*

- Built a role based restaurant reservation system for searching, booking, and managing restaurant reservations.
- Designed RESTful APIs with JSON I/O, input validation, and error handling; integrated Google Maps.
- Deployed backend and database to AWS EC2 with Load Balancer, ensuring high availability.

Meeting Room Booking System | *Java, SQL, HTML/XML, CSS, MVC framework*

- Developed a full-stack web application for managing room reservations using Java, enabling CRUD functionality and improving efficiency for room allocation at work places.
- Implemented a secure authentication system and ensured smooth user experience by using RESTful APIs.

Technical Skills

Programming Languages: Python, Java, JavaScript, SQL,HTML/CSS

Framework/Libraries: TensorFlow, PyTorch, Scikit-learn,OpenCV, Flask, React.js

Tools: GitHub, AWS (EC2, Lambda, App Mesh), MLflow, Google Colab, VS Code, Eclipse, Microsoft Suite

Concepts: Machine Learning, Deep Learning, Data Mining, Data Structures,Object Oriented Programming, Analysis design of Algorithm, REST APIs, Model Deployment

Soft Skills: Communication, Leadership, Problem-solving, Teamwork

Certifications

- Secured CCNA certificate(Cisco Certified Network Associate)
- Python training certification course by SimpliLearn
- Implementing and Administering Cisco Solutions(CCNA) 2.0 by NTT private LTD.

Leadership / Extracurricular

- Event Lead, Spartan Digital Literacy Summit (AI-focused event)
- Adobe Student Ambassador, San Jose State University
